As a sixth-semester Informatics student at Sriwijaya University, I have successfully developed several web development initiatives focusing on frontend and backend, managing project schedules effectively, reducing delivery time by 25% while maintaining a 98% code accuracy rate and staying abreast of the latest industry trends.

Experience

Member of the Information Technology Development Division • Himpunan Mahasiswa Informatika

Jan 2023 - Jan 2024 | Palembang, Indonesia

- Led IFFEST 2023 academic division, increasing registrant interest by 10% from the previous years
- Managed 50% of backend and frontend development for HMIF admin dashboard
- Served as Deputy Chairperson, selecting 20+ mentors for the Mentoring Coding program
- Acted as Mentor, guiding 15+ junior student in the Mentoring Coding program to enhance their skills.

PIC of IT Lead Developer • SRIFOTON 2023

May 2023 - Oct 2023 | Palembang, Indonesia

- Led a team of 5 to successfully develop the Srifoton website under the IT Lead Manager's guidance
- Handled 20% of the backend development tasks for the project
- Managed 90% of the frontend development tasks for the admin dashboards
- Successfully accomodated 270 applicants, an increase of 28% from the previous years

Web Developer Internship • Kantor Pelayanan Kekayaan Negara dan Lelang (KPKNL)

July 2023 - Aug 2023 | Palembang, Indonesia

- Collaborated as a frontend developer on a successful web app for national asset management
- Succesfully integrate with 3rd party apps and services (Whatsapp APIs)
- Handled 90% of the frontend development tasks of the project
- Developed all requested features with a 98% satisfaction rate
- Developed website with 10+ document management features, completed within 1 month, improving efficiency by 60%

Member of Business Fund • Fasilkom Science Community

Jan 2022 - Jan 2023 | Palembang, Indonesia

- Led as Chief Executive Event for the Webinar Entrepreneur Fasco 2022, overseeing a participation 40+ attendees
- Coordinated theme selection and liaised with supervisors for the Debate Competition at Technology Euphoria 2022

Education

Undergraduate in Informatics Engineering • Sriwijaya University

Aug 2021 - Sep 2025 (Expected) | Palembang, Indonesia | 4.00/4.00

- Relevant courses: Web Programming, Advance Web Programming, Distributed Database System, Object-Oriented Software Development, Software Engineering, Database, and Advanced Algorithms and Data Structures

Cloud Computing Learning Path • Bangkit-Academy led by Google, Tokopedia, Gojek, & Traveloka

Aug 2023 - Jan 2024 | Jakarta, Indonesia | 94.95/100

- Relevant courses: Advance Web Programming, Google Cloud Skill Boost, and Google Cloud Platform
- Graduated with Distinction, ranking in the top 10% out of 4520 students
- Excelled in English coursework and assessments, with 1,000 outstanding students

Project

Feb 2024 - Mar 2024	**Tim Bantuan Medis Sriwijaya** As a full-stack developer, created an administrative website using Laravel, automating patient data management and printing, significantly boosting efficiency by replacing manual processes.
Feb 2024 - Mar 2024	**Emotiven** Utilized Flask and Tailwind CSS as a full-stack developer to craft a website application. This platform trains models with IndoBERT and seamlessly integrates them into the frontend for emotion classification, elevating user interaction and accuracy.
Aug 2023 - Dec 2023	**Carval Capstone Project** As the backend and cloud engineer, utilized Flask to develop prediction APIs deployed on Google Cloud Run, while Laravel was employed for the news API, deployed on Google Compute Engine.
May 2023 - Sep 2023	**Sriwijaya Informatics Exhibition (SRIFOTON)** At SRIFOTON, I led the development of a Laravel-based website for participant registration, competitions, and seminars. As a backend developer, I created endpoints/APIs for 2 out of 3 competitions and designed an admin-side website for data management.
Jun 2023 - Jul 2023	**Payowasdal** A Laravel-based web app integrated with WhatsApp API. It's now used by KPKNL Palembang to send timely alerts to work units and administrators, meeting ministry deadlines. I focused on building an admin site for efficient national asset data management and automated document notifications.

Certifications

- **Cloud Computing Learning Path – Bangkit Academy**   Jan 2024
- **Problem Solving (Intermediate) – Hackerrank**   May 2024
- **JavaScript (Intermediate) – Hackerrank**   May 2024
- **SQL (Intermediate) – Hackerrank**   May 2023

Skills

- **Programming Languages:** PHP, Java, Python, JavaScript
- **Frameworks:** Laravel, CodeIgniter, Flask, Bootstrap, Tailwind CSS, React
- **Databases:** MySQL and MongoDB
- **Tools:** Git, Github, Postman, Google Cloud Platform
- **Soft Skills:** Problem Solving, Time Management, Project Management, Computational Thinking, Teamwork

Achievements

- Graduated with Distinction, ranked in the top 10% out of 4520 students
- 2nd Place in Competitive Programming Technology Manuscript Competition 2023 | Certificate

Languages

- Indonesia – Native
- English – Intermediate
